

## **TechMart Pro Laptop - User Manual & Troubleshooting**

Product Specs: TechMart Pro Laptop features 16GB RAM, 512GB SSD, Intel i7 Processor, costing 50,000 INR.

Troubleshooting Guide:

1. System Hangs/Errors: If you encounter installation errors or BSOD, completely uninstall the third-party application and update to TechMart OS Version 2.0.
2. Password Reset: Click the 'Forgot Password' link on the main login dashboard to receive an OTP on your registered email.
